Candelabrum 42278-6 "Ludwig"

The Historism Family

From the extensive private family collection from the legacy of Ludwig Lobmeyr we took an original candlestick from 1880 to challenge our master craftsmen and their skills. This experiment bore marvellous fruit.

This candelabrum is made from expertly cast brass in an authentic kings gold finish. The crystal parts were handmade exclusively for this item and are carefully hand-cut and polished. In creating this piece we only used techniques and tools which were state of the art in late 19th century. This way we created a piece which can hardly be discerned from an original of this period.

Design: Lobmeyr, circa 1880; Historism

Material: Brass; Finish: Kingsgold

Special requests: Metal in massive silver plating

Dia.: 37 cm, H.: 77 cm; Weight: 10 kg

Lights: 6 candle lights
