## Wall Sconce 4507-A-3 "Casino Baden"

The Haerdtl Family

For the Casino in Baden near Vienna Oswald Haerdtl designed this lovely wall sconce. With this he excels in his own floral style by creating a flower bouquet in brass and crystal.

The metal structure is carefully welded and polished to create the delicate organic branches. These are then decorated with lead-free and hand-polished crystal in a multitude of colours.

The most difficult task with this item apart from making the structure is to affix the crystal in a gravity-defying manner to create the blossoms and leaves.
