Wall Sconce 4636-W-2 "Schloss Hof Palace"

The Bohemian Glass Arm Family

This classical Baroque design originates from around 1720. Originally manufactured for Prince Eugen of Savoyen's palace "Schloss Hof", they were reconstructed by us on occasion of the castle's restoration in 1995.

The arms of glass rest on a brass "cake". All visible metal parts are polished. The modular construction allows for various to-fit layouts.

Through its simple shape it creates a timeless flair which perfectly accents a clean and clear modern architecture. Used in classical interiors it serves as a calm and set back centre piece.
