Wall Sconce 6865-W-3 "Fingers"

The Seventies Family

This fixture is a development from our idea of using Swarovski Crystal on lighting fixtures. It consists of a delicate back plate design made from cast brass and a front grid with crystals.

The back plate mould was made by melting Styrofoam into the desired shape thus arriving at the molten impression of the piece. The front grid is made from slim brass bars where the crystals are attached with wires the usual sturdy way.

The asymmetrical layout of this sconce makes the use as pairs in left and right versions feasible.

Design: Hans Harald Rath, 1968; Modern

H.: 30 cm, W.: 38 cm; Weight: 3 kg

Material: Brass, Swarovski crystal; Finish: Antique, nickel

Lights: 3 x E14; Max. Wattage: 180 W

Special requests: Metal parts in different finishes, left and right versions available
