## Wall Sconce 734-2 "Maria Theresia"

The Viennese Baroque Family

These wall sconces are either a perfect addition to any style of baroque chandeliers or a stand-alone decoration. Instead of expensive bronze we used expertly wrought iron to construct the frame. This is then leaf-gilded and clad with fitted glass bands or numerous crystal rosettes to augment the impression. To further enhance the brilliance it is decorated with the typical crystal pendants.

An important detail is then the number and size of these pendants. The crystal must never be overdone. But they must be selected in a size not to leave gaps between the arms which would have to be bridged with chains.

Design: Zahn, circa 1780; Baroque

W.: 25 cm, H.: 35 cm; Weight: 1,5 kg

Material: Wrought iron, lead-free glass; Finish: Leaf gold

Lights: 2 candles; Max. Wattage: 120 W

Special requests: Metal in leaf silver or in any other surface finish, without glass bands.
